a false scent, for the hounds of war were moving in the other direction and both these stocks broke badly. Union Pacific dropping fully five points and Southern Pacific 4 on selling credited to German interests. A sharp break in the industrials followed.

#### Big Drop in Steel.

Dealings in the last hour were quiet Drop in Industrials Follows Steel common from the early price of \$2.7-8 slid down slowly until a few min-53 7-8 slid down slowly until a few min-utes after noon, the stock dropping to 50. It hung there but a few minutes, then touched 49 3-4. Then 200 shares soid at 49 5-8; 100 shares at 49 1-4, and the next sale was a sheer drop of a point. There was an immediate recovery to 49, but the effect was feit throughout the entire list. The buying looked good later, when the price steadled to 51.

English Investors for First Time in day's fluctuations in the war stocks.

Months Are Purchasers of There was a 9-point drop in Westinghouse. American Locomotive lost points in two hours and Baldwin Locomotive moved between 47, 28, and 43. New York, May 10.—Many quotations which survived Friday's break, succumbed to weakness today. Closing prices showed recoveries from the low figures of the day which were established about noon, when the market had a bad half lour with very violent and a bad half

crease in the "sellers option" trading in the bond market, where many fransactions were made in high-grade issues

'seller 30 flat." "seller 30 flat."
For the first time in many months there was buying for English investors of Union Pacific, Southern Pacific, and Amalgamated Copper. Bond prices were fractionally lower, although the tone of the market is called distinctly good.

#### COTTON MARKETS.

New York, May 10.—The cotton market was highly nervous today. It opered at an advance of 13 to 17 points, which was not as good as had been generally expected on rables from Liverpool. After the start the list worked lower. Around noon on clase reports, at President Wilson had been assassinated, prices slumped about \$1.50 a bale, but railind promptly on a denual of the rumors. The selling seemed to come from practically all directions.

The final hour was one of comparative calm, the duliness suggesting that speculative accounts had been either strongly protected with margins or liquidate. Futures closed steady at a net decline of \$a15 points.

toward the clow, finishing irregular at a net gain of sall points.

There was an active demand from trade interests and also a good deal of covering by local and outside shorts, which absorbed the scattered figuidation. The day's legitimate news contained nothing of a particularly tro-h nature. Exports made a poor showing, only 2.53 bales leaving domestic ports for Europe. For the season the clearances aggregate, 15.45 bales bales against 8.331.76 bales a year ago. The spot narket here was 15 points lower at 2.60. Today's receipts at the ports were 16.355 bales, against 12.615 bales a week ago and 2.816 bales a year ago.

A man in the international trade expressed the opinion that the action of the Italian government with reference to re-exportation of cotton is of more importance to the American exporter of the staple and more liable to restrict shipments than any of the more recent developments.

## NEW YORK MONEY.

## CHICAGO GRAIN MARKET.

Chicago, May 10,-The trade in wheat was pre-Chicago, May 90.—The trade in wheat was pre-sured for almost anything in the way of sensa-tional news tedar, set the unfavorable rumors re-served from Washington were not only a surprise out a factor in the market, causing a sharp price one, which was later almost wholly regained. An-ther surprise came when it was learned that \$20,000 bushels of wheat were taken late Saturday and today for export.
